

ONLINE
WORKSHOP

26TH TO 31ST
October 2020

EDGE-Tech

Emerging and Disruptive next-
Generation Technologies for POC:
Sensors, Chemistry and Microfluidics for Diagnostics

EDGE-Tech Workshop will be focused on new, emerging and disruptive technologies with applications at the Point-Of-Care. International speakers will share their experience in the field of **sensors, chemistry and microfluidics** as well as technological transfer and project management strategies. In the frame of EU SMILE-Attract project, the event is organized by CNR NANOTEC and STMicroelectronics.

A Special Issue on *Micromachines* (ISSN 2072-666X) will host papers coming from EDGE-Tech Workshop.

Free registration at: <https://www.eventbrite.it/> (search *EDGE-Tech*)

Send your poster to: smile-attract@nanotec.cnr.it

Deadline *October 22nd 2020*

Confirmed EDGE-Tech Speakers

Markus Nordberg (CERN, CH)
Francesco Canfarotta (MIP Diagnostics, UK)
Luisa Torsi (University of Bari, IT)
Zulfiqur Ali (Teesside University, UK)
Ibrahim Abdulhalim (University of the Negev, IL)
Michael Bassler (IMM Fraunhofer Institute, DE)
Andrea Zattoni (University of Bologna, IT)

Scientific Committee

Maria Serena Chiriaco (CNR Nanotec)
Francesco Ferrara (STMicroelectronics)
Elisabetta Primiceri (CNR Nanotec)
